Available for co-op, January–April 2027

EDUCATION

University of Waterloo

Waterloo, ON

Bachelor of Honours Mathematics and Business Administration (Co-op)

Sep 2025 – Present

- **Awards:** Waterloo President's Scholarship; Term Distinction; Excellent Academic Standing (all terms)
- **Relevant Coursework:** Financial and Managerial Accounting, Business Law, Microeconomics, Macroeconomics, Business Entrepreneurship, Interpersonal Communication, Calculus 1–3, Linear Algebra 1–2

SELECTED EXPERIENCE

KPMG

April 2026 – July 2026

Business Advisory Intern, Deal Advisory

- Derived a **16.38% WACC** from a **21.48%** cost of equity and **11.28%** after-tax cost of debt at 50/50 weights.
- Built the **10-year** coffee shop DCF beneath it, returning a firm value **31% above** invested capital.
- Stress-tested revenue and cost at $\pm 5\%$: firm value swung $\pm 10\%$, twice as sensitive as the inputs driving it.
- Modeled a **12-year, four-city** restaurant rollout with independent escalators for revenue, cost, capex, and salaries.
- Contributed to an independent valuation of **Nishat Sutas Dairy**, a Pakistan-Turkey JV backed by **CAD 19.5M**.
- Built the Excel models estimating fair value to inform negotiation on a **49.10%** stake transfer, for both shareholders.
- Wrote research memos and client-ready presentations translating the analysis into a case the client could act on, supporting senior advisors across energy, infrastructure, and dairy.

Kinetic Worldwide

Sept 2024 – Jan 2025

Business Analyst Intern, Rotational Program

- Selected as **one of two interns** for a rotational program across five departments, from client brief to delivered revenue.
- Tracked and reconciled over **CAD 1M+** in media spend across **three national campaigns** for two blue-chip clients.
- Planned against **12,000+ outdoor sites** in **Katalyst**, Kinetic's proprietary and industry-first platform.
- Rebuilt Excel dashboards daily on reach, impressions, and return on ad spend; assisted finance in **Odoo**.

RESEARCH & PROJECTS

OOH Campaign Performance Analyzer

Python, pandas, SQL, SQLite, Chart.js

- Built a **Python and SQL** pipeline that finds under-delivering out-of-home inventory **mid-flight**.
- Measures each placement against contracted impressions prorated to days elapsed, removing **181 false positives**.
- Tracks **CAD 5.41M** across **595 placements**, flags the **61** behind contract, prices it at **CAD 152,435**.

Smog-Eating Billboard

Research, Cost-Benefit Analysis, Technical Writing

- Modeled retrofitting Lahore's **1,150+ hoardings** removing pollutants equal to **292,800 trees** in six hours.
- Published in **Daily Pakistan**, arguing to advertisers on cost-benefit rather than environmental grounds.
- Identified the supply constraint: titanium dioxide is not produced in Pakistan and would have to be imported.

JustdiggIt Funder Research

Prospect Screening, Market Research, Research Briefs

- Owned funder research for the **Kijani regreening app**, screening prospects on mission fit and giving capacity.
- Produced the priority outreach list the team worked from, and the research brief behind each shortlisted prospect.
- Separated funders with the **capacity** to give from those with the **mandate** to back land restoration.

BarakahLink

Python, Google Gemini API, Leaflet, TypeScript

- Built an AI donation platform using **Google Gemini** to turn unstructured inputs into organized listings.
- Engineered SMS-style access and hyper-local mapping, so it serves low-connectivity users without an app.

TECHNICAL SKILLS

Finance & Valuation: Financial Modeling, Three-Statement Projection, DCF, WACC, Sensitivity Analysis

Accounting: Journal Entries, Financial Reporting, Cash Flow Tracking, Invoicing, Odoo (ERP)

Data & Tools: Excel (Modeling, Dashboards, Pivot Tables), Python, SQL, pandas, PowerPoint

AI & Automation: Prompt Engineering, LLM APIs (Gemini, OpenAI), Workflow Automation (n8n), Cursor

Professional: Research Memos, Client-Ready Presentations, Market Analysis, Prospect Research
